

Dear Craig,

Thank you for everything you did for our house. We love it! We like the design, we liked all the help you gave us to make so many choices, we liked how fast the project went. We most especially appreciate the personal interest you took in our project, we were very well taken care of.

We've been celebrating our new house every day and wanted to give you something to celebrate with as well.

Laura

& Christophe

Dear Troy,

Thank you so much for the wonderful ideas for our house. We're so happy with it! Thank you for really thinking about what kind of people we are and what we needed, we think you're a great listener. We're so happy to have found a company that could take care of everything we needed and present us with so many different ideas.

We've been celebrating our new house every day and wanted to give you something to celebrate with as well.

Laura

& Christophe
